## FINGERLIGHTS

### Certified to these NVIS Standards:

- \* NVIS Green A
- \* NVIS White

The FINGERLIGHT is a light that mounts to any finger on either hand. The FINGERLIGHT is small, self-contained, and weighs less than 1/3 oz. The NVIS Green A and Filtered NVIS White are NVG compatible. Use the IR light to enhance ambient light for the NVGs. Use the red laser with NVGs to point out objects or designate targets.

It is attached by means of Stretch Velcro™ which is durable as well as comfortable and does not restrict circulation. The FINGERLIGHT will not interfere with the movement of your hand or finger. Just "Push-ON and Push-OFF".

Our Fingerlights are the original Fingerlight designed specifically for the U.S. Armed Forces.

**Only our Fingerlights meet all 17 required military specifications.**

#### FINGERLIGHTS and Fingerlight Accessories:

ITEM	DESCRIPTION	NSN
FL-5	NVIS Green A	6230-01-357-2175
